

Dear Brothers and Sisters in the Resurrected Christ,

In the more than luminous brightness of spring when life is reborn with unparalleled splendor and beauty, we are announcing the Resurrected Christ to the world. Christ's Resurrection fills the whole of creation, infusing it with an eternal spring that awaits its manifestation by the faith and living testimony of all Christians!

Yes, the Resurrection also concerns all creation, because man sums up all earthly life in his body. That is why Christ's Body includes all mankind, and through it all creation. Saint Tugdual tells us that the body of the Word embraces the whole of creation with love, with man its king. The salvation of both man and creation are simultaneous!

Thus the Resurrection is not something that will only be fulfilled at the end of time, but truly a reality present at the heart of man and all earthly life. Yet it remains hidden, waiting to be progressively brought about by man's faith and holiness. For, it is up to us to reveal it by our spiritual life and our life in community that is the Church. This is each and every Christian's vocation: to proclaim the Good News of the Resurrection as the Lord Jesus commanded: "As the Father has sent me, I am sending you." (John 20:21)

Let us open wide the doors of our heart to let the New Life, the Living Water, and Eternal Life enter into us.

May Pascha morning of be the morning of a new dawn in our life and in the life of the world!

Christ is Risen!

✠ Marc - primate
